10–11 a.m. Issues Briefing

11 a.m.–3 p.m. Appointments with Legislators

3:30–4 p.m. Debrief

Help legislators understand the issues facing California CPAs

CPA Day at the Capitol is one of the most important events for CalCPA members to attend.

During each legislative session, **bills are introduced that impact you, your clients or your employer**. Legislators are not always familiar with the unique environment that surrounds the CPA profession. **This is your chance to familiarize your representatives.**

You will be able to speak on issues important to you as a California CPA. Our efforts are more effective when the legislator or their staff can sit face to face with someone—you—who is directly affected by an issue.

The connections you make will prove crucial in educating legislators on CPA issues before they vote, not to mention establishing meaningful relationships that ultimately will create a more favorable business environment throughout California.

Please sign up as early as possible to ensure we will be able to successfully schedule the appointment with your representative.

Don't underestimate the importance of *your* presence—Register today.
