## Interactive Data Electronic Applications (IDEA)

- On 8/19/08, SEC announced IDEA, the successor to EDGAR
- Stated goal: To give investors faster and easier access to key financial information about public companies and mutual funds
- Marks shift from submission of documents to submission of data
- Consistent with Interactive Data Initiative and previously announced \$50M investment in EDGAR replacement
- Gradual phase-in of five years

“By tapping the power of interactive data to tear down barriers to quick and meaningful investment information, markets can become fairer and more efficient while investors can possess far better quality data than was ever possible before.”

- David Blaszukowsky, Director of the SEC’s Office of Interactive Disclosure

- National consortium for XML business reporting standards
- Members include accounting firms, software providers, newswires, filing agents and information intermediaries
- Mission
  - Facilitate the development and use of taxonomies for public and private sector applications
  - Promote adoption of XBRL through the collaboration of all business reporting supply chain participants
- Responsible for
  - Creating awareness and educating the reporting community on XBRL
  - Build-out and maintenance of the taxonomies
    - New taxonomy release scheduled for February 2009

Dimensions allow the reuse of an XBRL tag so it can be applied to multiple line items.

In the Shareholder's Equity Table the Beginning and Ending Balance items are shared by: *Common Stock*, *Retained Earnings* and *Accumulated Other* sections.

The same tag is applied to values in these sections.

Dimensions differentiate between each occurrence when the same tag is reused.

## Footnote Tagging: Detailed – 2<sup>nd</sup> Year requirement

Companies would insert a table below the narrative with the individual facts which would allow for more precise tagging of the detailed information in a structured format.

Therefore, each item in the table below would be tagged separately.

### ORIGINAL FOOTNOTE

#### *Stock Options*

The Company granted 754,000 and 470,000 stock options in the years ended December 31, 2008 and 2007, respectively. No stock options were granted in 2006. The fair value of each stock option award is estimated on the date of grant using the Black Scholes option pricing model. The fair value of the stock options was determined using the following assumptions:

	2008		2007	
Expected volatility	22.78	%	20.34	%
Risk-free interest rate	2.96	%	4.52	%
Expected life (years)	6.25		7	
Expected dividend yield	3.31	%	2.85	%

The grant date fair value of options granted was \$5.63 and \$7.84 for the years ended December 31, 2008 and 2007, respectively.

## Footnote Tagging: Detailed – 2<sup>nd</sup> Year requirement

Companies would insert a table below the narrative with the individual facts which would allow for more precise tagging of the detailed information in a structured format.

Therefore, each item in the table below would be tagged separately.

### DETAIL TAGGED FOOTNOTE

#### *Stock Options*

The Company granted 754,000 and 470,000 stock options in the years ended December 31, 2008 and 2007, respectively. No stock options were granted in 2006. The fair value of each stock option award is estimated on the date of grant using the Black Scholes option pricing model. The fair value of the stock options was determined using the following assumptions:

Grant-Date	12/31/2008	12/31/2007	tag-GrantDate
Stock Options Granted	754,000	470,000	tag-StockOptions
Expected Volatility	22.78%	20.34%	tag-ExpectedVolatility
Risk-Free Interest Rate	2.96%	4.52%	tag-RiskFreeInterestRate
Expected life (years)	6.25	7.00	tag-ExpectedLife
Expected dividend yield	3.31%	2.85%	tag-ExpectedDividendYield
Fair value on grant date	\$5.63	\$7.84	tag-FairValueOnGrantDate

The grant date fair value of options granted was \$5.63 and \$7.84 for the years ended December 31, 2008 and 2007, respectively.

## What needs to be Tagged in XBRL?

### Registration Statements

#### Form Types

- Form S-1, S-3, S-4
- Forms S-11, F-1, F-3, F-4
- Includes registration statements for annuity contracts filed on Forms S-1 and S-3

#### Timing

- Excluding IPOs, all registration statements have to include interactive data after a price range has been determined, or any time after when financials are changed

#### Exceptions

- Not required in a statement that merely incorporates financial statements by reference
- Does not include IPO's or registration statements under the exchange act

For business combinations, only the Acquiring Company must provide interactive data

# SEC Final Rules Released – January 30th, 2009

## Filings that do Not Contain XBRL Filing Requirement

### MJDS Filings (F-9, F-10)

- Filed by Canadian issuers using Canadian GAAP or reconciled US-GAAP

### Final Prospectuses

- Filed pursuant to Rule 424(b) under the Securities Act

### Acquired Companies

- Financial statements of a company proposed to be acquired that are included in a Form S-4 or F-4

### Financial Statements other than the Issuer's Financial Statements

- Financial statements of a company proposed to be acquired that are included in a Form S-4 or F-4
- Financial statements of businesses acquired or to be acquired
- Financial statements of unconsolidated subsidiaries and 50% or less owned persons
- Financial statements of guarantors
- NOT Required for financial statements pursuant to Rules 3-05, 3-09, 3-14 and 3-16 of Reg S-X
- Additionally pro forma financial statements prepared under Article 11 of Reg S-X are not subject to interactive data requirements

# SEC Final Rules Released – January 30th, 2009

## XBRL Submission Timing

### Deadlines

- Due on the same day as the traditional HTML or ASCII filing
  - Interactive data files as an exhibit to the traditional filing
- Must be submitted to EDGAR and posted to the company website

### Exception 1

- 30 day grace period permitted for first XBRL submission

### Exception 2

- 30 day grace period permitted for first XBRL submission with detailed footnote tagging

# SEC Final Rules Released – January 30th, 2009

## Web Hosting Requirement

**XBRL data must be posted to corporate website the same day it files. Posted for 12 months**

**Raw interactive data is adequate (human readable format not required)**

**Link to SEC website doesn't meet requirement. Company must provide data**

# SEC Proposed Rules Released – January 30, 2009

## Liability Framework

First 24 Months – Furnished	After the 24 <sup>th</sup> Month – Filed
<ul style="list-style-type: none"><li>• Similar to VFP liability</li><li>• Deemed not filed for purposes of specified liability provisions</li><li>• Protected from liability for failure to comply with the tagging requirements if<ul style="list-style-type: none"><li>– Interactive data file failed to meet requirements but failure occurred despite filers good faith effort and</li><li>– Filer corrected failure promptly after becoming aware of it</li></ul></li><li>• Machine readable file only</li></ul>	<ul style="list-style-type: none"><li>• Subject to the same liability under the federal securities laws as the corresponding portions of official HTML or ASCII filing<ul style="list-style-type: none"><li>– Subject to liability under Sections 11 and 12 of the Securities Act</li><li>– Section 18 of the Exchange Act and Section 34(b) of the Investment Company Act</li></ul></li><li>• Machine readable file only</li></ul>

# SEC Final Rules Released – January 30th, 2009

## Liability Framework (continued)

### Officer Certifications and Integration of Interactive Data & Business Information Processing

#### Officer Certification

- Interactive Data is excluded from the officer certification requirements in Rules 13a-14 and 15d-14

#### Integration into Business Information Processing

- Integration could have implications on internal controls

- Integration could have implications on internal controls no different than any other controls related to preparing financial statements

- XBRL preparation may become interdependent; issuer and auditors should evaluate changes in context of their reporting on internal control over financial reporting

# SEC Final Rules Released – January 30th, 2009

## Liability Framework (continued)

### Auditor Liability on Interactive Data Files

**Allowed, but not required.**

**There is no additional basis for auditor liability based on data tagging; however...**

**Rules do not prohibit issuers from indicating the degree of auditor involvement in the tagging process (such as in a footnote)**

**Issuers may voluntarily obtain third party assurance on XBRL data under PCAOB Interim Attestation Standard**

# SEC Final Rules Released – January 30th, 2009

## Liability Framework (continued)

### Major and Minor Errors

#### Major Error

- Similar to VFP
- Major error will cause exhibit to be suspended
- Rest of traditional filing will be accepted/ disseminated if no errors other than XBRL

Filer must revise XBRL exhibit and submit as an amendment to filing

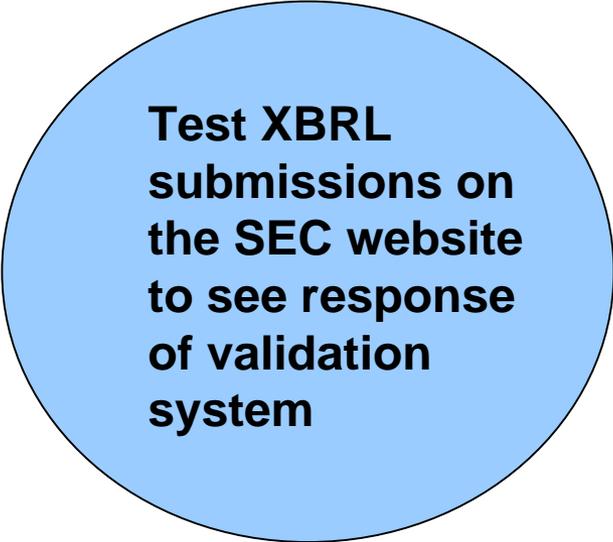

#### Minor Error

- Will not prevent the exhibit from being accepted
- XBRL will be disseminated with the traditional filing

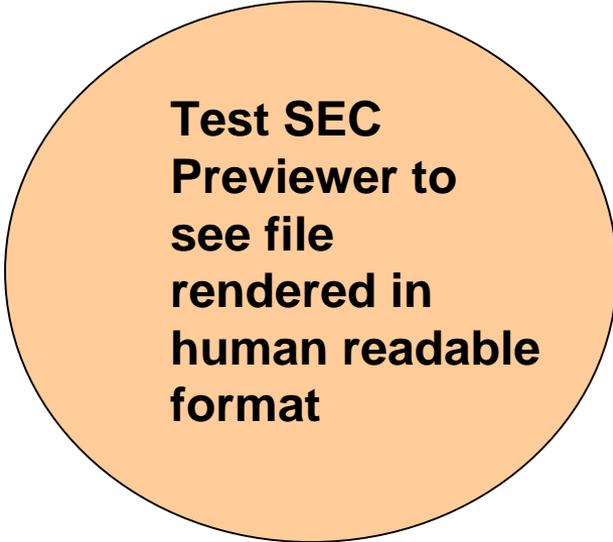

# SEC Final Rules Released – January 30th, 2009

## Liability Framework (continued)

### Avoiding Errors – Make a Test Submission

**Test XBRL  
submissions on  
the SEC website  
to see response  
of validation  
system**

**Test SEC  
Previewer to  
see file  
rendered in  
human readable  
format**

# SEC Final Rules Released – January 30, 2009

## Non-Compliance & ‘Springback’ of Current Status

### Non-Compliance

- Filers who do not provide/post XBRL on date required deemed not current

### Implications

- Not eligible to use short forms: S-3, F-3, S-8 or elect under Form S-4 or F-4 to provide information at a level prescribed by Form S-3 or F-3
- Not deemed to have available adequate current public information for resale exemption safe harbor provided under Rule 144.

### Springback of Current Status

- Filer deemed not current solely as a result of not providing an interactive data exhibit would be deemed current and timely upon providing the interactive data
- Would regain short form eligibility and Rule 144 safe harbor

# SEC Final Rules Released – January 30, 2009

## Revised/Amended/Restated financials and XBRL

- If filer revises its previously filed financial statements,
- Then filer must also provide revised interactive data

### **Clarification**

- If filing is revised but financial statements are unchanged, no interactive data update required

# SEC Final Rules Released – January 30, 2009

## Hardship Exemptions

### Rule 201

- Provides temporary hardship exemption when filer has technical difficulties that delay a filing

### When It Applies

- Exemption applies without staff or Commission action if filer experiences unanticipated technical difficulties

### Implications

- When applied, filer is deemed current for a period of up to six business days from the original interactive data deadline

**Issuer would apply for hardship through the standard process outlined in the EDGAR manual**

# SEC Final Rules Released – January 30, 2009

## Implications for Voluntary Filers

### Can issuers continue to file voluntarily?

- Yes, issuers can file interactive data before they are mandated by the phase-in schedule

### Can voluntary filers start and stop?

- Yes

## Implications

### What is the implication for the first filing 30 day grace period?

- The 30 day grace period is applied against the filer's first XBRL filing after 6/15/09, whether mandatory or voluntary

### What is the implication for the first detailed notes 30 day grace period?

- The 30 day grace period for the first filing with detailed footnotes is applied against the filer's first such filing after 6/15/09, whether mandatory or voluntary

### What are the liability implications?

- Liability is tied to the issuer's mandate date
- The 24 months of "Furnished, Not Filed" status is not impacted by voluntary filings
