The Domain .cpa Could Be Yours Soon

The AICPA is in the process of being awarded the .cpa domain and is currently in a contract execution phase with the Internet's global governing body, the Internet Corporation for Assigned Names and Numbers. The new domain extension will be available to CPAs and their firms. For example, Firm Name, LLC, could have a website address of [www.firmname.cpa](#). Jane Smith, an employee at that firm, could have an email address of [jsmith@firmname.cpa](#).

More details on registering a domain name will be available later this year. [Get additional information and the opportunity to sign up for notifications.](#)
